

2021 NCTS Young Dynamics Day

Time | **February 19, 2021**

Venue | **Hsu Shou-Chlien International Conference Center HC307,
Tamkang University**

The purpose of this mini workshop is to provide a forum for young generations within the dynamical systems community in Taiwan. Speakers are encouraged to present their research interests or projects with ambition, contents need not be finished works of their own. In this regard, the workshop is a meeting for people to share their "mathematical dreams", instead of limited to their research accomplishments. Anyone interested in dynamical systems is welcomed to participate, especially young scholars and graduate students.
